

Abhijitam Dubey

Full Stack Product Engineer

Delhi, India

work.abhijitam@gmail.com · <https://github.com/Abhijitam01> · <https://abhijitamdubey.site>

I build products end-to-end — from unclear ideas to shipped systems people actually use.

I think in systems first, then execute fast. I use AI to accelerate development, not replace thinking. I optimize for speed, clarity, and ownership.

EXPERIENCE

Software Engineer — Abu Dhabi-based Startup

Feb 2023 — Present

- Shipped full-stack features across frontend, backend, and infrastructure with end-to-end ownership
- Designed scalable APIs and systems, turning ambiguous product ideas into reliable production flows

Full Stack Developer — CrowdFeuz

Feb 2025 — Oct 2025 · New Delhi

- Built a complete ticketing + booking system with integrated payments
- Simplified backend flows and UX to improve reliability and conversion

PROJECTS

EyeSwitch (Standout Project)

<https://eyeswitch.abhijitamdubey.site>

- Built an interaction-first system exploring alternative human-computer interfaces, reducing reliance on traditional input patterns
- Designed a full-stack architecture focused on real-time responsiveness and frictionless navigation, emphasizing experience over features

Sketchy (Excalidraw-like Tool)

<https://github.com/Abhijitam01/sketchy>

- Developed a canvas-based drawing system with real-time rendering and interactive shape handling
- Focused on performance optimization and building intuitive visual interactions

Chess

<https://github.com/Abhijitam01/chess>

- Built a complete chess engine with move validation and rule enforcement
- Designed clean state management for predictable and consistent gameplay

SKILLS

MY Skills and techstack building full stack application and agent based system

Core : TypeScript · JavaScript · React · Next.js · Node.js

Systems : APIs · WebSockets · System Design · Scalable Architecture

Databases : MongoDB · PostgreSQL · SQL

Tools :Git · Docker · TurboRepo · Vercel · Railway

EDUCATION

B.Tech — Maharaja Surajmal Institute of Technology

2026 · Delhi
